

Olivier von Dach

1972.6.22

Swiss, I speak FR, EN(B2), DE(B2), ES(B2)

Software engineer, Craftsman, Backend polyglot

Passionate about well-crafted code, I design software systems that are durable, scalable and maintainable at low cost.

My craft expertise enables me to influence the implementation of modern software engineering practices within technical teams.

My linguistic expertise focuses on the major programming languages and application frameworks, as well as the ability to take on multiple roles.
